

MEDICINE HAT

The tempests that rattle and kill off the cattle and freeze up the combs of the roosters and hens, that worry the granger, whose stock is in danger—the mules in their stables, the pigs in their pens—the loud winds that frolic like sprites with the colic and carry despair to the workingman's flat, the wild raging blizzard that chills a man's gizzard, they all come a-whooping from Medicine Hat. When men get together and note that the weather is fixing for ructions, preparing a storm, they cry: "Julius Caesar! The square headed geezer who's running the climate should try to reform! The winter's extensive and coal's so expensive that none can keep warm but the blamed plutocrat! It's time that the public that should some weather dub lick! It's time for a lynching

at Medicine Hat!" And when the sun's shining we still are repining. "This weather," we murmur is too good to last; just when we are hawking because we are thawing there'll come from the Arctic a stem-winding blast; just when we are dancing and singing and prancing, there'll come down a wind that will freeze a stone cat; just when we are hoping that winter's eloping, they'll send us a package from Medicine Hat!"

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.
